

# UV Water Filter Cover

---

## DIMENSIONS:

---

H: 540mm, L: 1000mm, D: 270mm

*(Fixing side Measurements)*

It is recommended to install UV systems under cover, but if you choose to install outside, these covers are a recommended addition to any UV Water Filter Installation with two key benefits:

- Some weather protection if installed correctly.
- Hides unsightly pipework and blends in with the house exterior, meeting high standard for home presentation.

---

## PRODUCT FEATURES:

---

- Lightweight & durable product that is easy to install.
- Manufactured with UV resistant plastic.
- Supplied in white, but fully paintable should the homeowner wish to colour-match to their home.

---

## PAINT FINISH:

---

Fully paintable with any acrylic household paint.

Preparation with a vinyl etch primer undercoat is recommended.

Consult your local paint specialist if you require further advice.
